About Me

Public Health professional with **9+ years of experience** in disease surveillance, epidemiology, immunization, outbreak investigation, and health systems strengthening.

Currently serving as a **Surveillance Medical Officer (WHO-NPSN)** supporting India's Polio Eradication Programme, Vaccine Preventable Disease (VPD) Surveillance, Environmental Surveillance, and Routine Immunization strengthening.

Experienced in leading multidisciplinary teams, capacity building, epidemiological investigations, public health research, and evidence-based decision making.

Professional Experience

World Health Organization (WHO)

Surveillance Medical Officer (SMO)

Current

Key Responsibilities

- Disease Surveillance (AFP, VPD, Environmental Surveillance)
- Outbreak Investigation
- Routine Immunization Strengthening
- Health Systems Strengthening
- Epidemiological Data Analysis

- Monitoring & Evaluation
- Capacity Building
- Technical Support to Government
- Policy Advocacy
- Cross-border Surveillance
- Evidence-based Decision Support

Major Contributions

- Led surveillance activities in **Gavi-supported districts**
- Supervised multidisciplinary teams across districts
- Supported **Routine Immunization** improvement
- Coordinated **VPD Surveillance**
- Conducted High Risk Area (HRA) validation
- Supported Head Count Survey validation
- Monitored WHO Cluster Survey
- Implemented BeSD Survey monitoring
- Worked with Track Vac digital platform
- Conducted AEFI and VPD trainings
- Supported National Immunization Days (Pulse Polio)
- Managed vaccination monitoring at **Indo-Nepal International Border Booths**
- Led successful transition and closure of WHO NPSN district units

Environmental Surveillance

Worked on:

- Wastewater Surveillance
- Environmental Poliovirus Surveillance
- VDPV3 Investigation

- Multi-pathogen Wastewater Surveillance
 - Epidemiological Field Investigation
-

Senior Resident

Department of Community Medicine

R.D. Gardi Medical College

Responsibilities

- Undergraduate Teaching
 - Postgraduate Training
 - Community Health Surveys
 - Health Camps
 - RMNCAH
 - Public Health Research
 - Skill Lab Development
 - World Health Day Activities
-

Medical Officer

Ujjain Charitable Trust Hospital

- General Medicine
 - Emergency Care
 - MICU Management
 - Minor Surgical Procedures
 - Clinical Supervision
-

NRC Medical Officer

District Hospital, Agar Malwa

- Nutrition Rehabilitation Centre
 - Child Health
 - COVID-19 Management
 - Field Supervision
 - Program Monitoring
-

Education

MD – Community Medicine

Netaji Subhash Chandra Bose Medical College
Jabalpur, Madhya Pradesh

MBBS

R.D. Gardi Medical College
Ujjain, Madhya Pradesh

Areas of Expertise

- Disease Surveillance
- Epidemiology
- Public Health
- Immunization
- Vaccine Preventable Diseases
- Outbreak Investigation
- Environmental Surveillance
- Health Systems Strengthening
- Monitoring & Evaluation
- Program Management

- Capacity Building
 - Data Analysis
 - Operational Research
 - Health Communication
 - Policy Advocacy
-

✂ Technical Skills

Public Health

- AFP Surveillance
- VPD Surveillance
- Environmental Surveillance
- Routine Immunization
- Measles & Rubella Surveillance
- Outbreak Response
- BeSD
- HRA Validation
- Track Vac
- Safe Vac

Data Analysis

- SPSS
- Microsoft Excel
- Epidemiological Analysis
- Biostatistics
- Data Visualization

GIS & Mapping

- ArcView GIS

Productivity

- MS Word
 - MS Excel
 - MS PowerPoint
 - Microsoft Teams
 - Zoom
 - Google Meet
-

Research Interests

- Epidemiology
 - Vaccine Preventable Diseases
 - Disease Surveillance
 - Environmental Surveillance
 - Public Health Informatics
 - Health Systems Strengthening
 - AI in Healthcare
 - Data Analytics
-

Selected Achievements

- WHO Surveillance Medical Officer
- Led VDPV3 Environmental Surveillance Investigation
- Successfully transitioned WHO district surveillance units
- Presenter at State Immunization Data Systems Workshop
- International Cross-border Capacity Building Participant
- ArcView GIS Certified
- AI in Healthcare (96%)

- Guinness World Record Participant (AI in Healthcare Livestream)
 - Mathematical Modelling for Infectious Diseases Certification
-

Publications

Predictors of High-Risk Pregnancy

Healthline Journal

Impact of COVID-19 Pandemic on Routine Immunization

Global Journal of Medicine and Public Health

Certifications

- Artificial Intelligence in Healthcare (NBEMS)
 - Mathematical Modelling for Infectious Diseases
 - ArcView GIS
 - WHO OpenWHO NCD Courses
 - SPSS Statistical Analysis
 - Biomedical Research
 - Maternal Infant Young Child Nutrition
 - Health Promotion & Education Intervention
 - Prevention of Type 2 Diabetes
-

Programs Supported

- Polio Eradication Programme
- National Immunization Day
- Routine Immunization
- Measles & Rubella Elimination
- Environmental Surveillance

- Sanchari Dastak Abhiyaan
 - Swasth Nari Sashakt Parivar Abhiyaan
 - Health System Strengthening (HSS)
 - Integrated Disease Surveillance Programme (IDSP)
-

Current Focus

- Public Health Data Analytics
 - AI in Healthcare
 - Health Informatics
 - Digital Disease Surveillance
 - Health Systems Strengthening
 - Epidemiological Research
-

Recommendations for your GitHub portfolio

To make your GitHub profile stand out, create repositories such as:

-  **Public-Health-Projects** (dashboards, surveillance analyses)
-  **Epidemiology-Analysis** (R/SPSS/Excel projects)
-  **AI-in-Healthcare** (course projects and AI applications)
-  **Disease-Surveillance-Resources**
-  **Research-Publications**
-  **Professional-Portfolio** (CV, certificates, presentations)
-  **Public-Health-Blog** (articles on immunization, epidemiology, surveillance)

This structure is significantly more GitHub-friendly than a traditional CV and presents your experience in a professional, recruiter-friendly format.
